

## FREE CONSULTATION

Have you ever wondered if you, a friend, or a family member might benefit from physical therapy? Do you know anyone with an injury or condition that interferes with sports or quality of life? Or perhaps you are interested in knowing if a “Performance Enhancement Program” might improve your game or help your child get a scholarship.

Well, stop wondering and find out! We offer a free consultation with a trained physical therapist who will spend a few minutes with you to understand your situation and your goals. We will tell you honestly if we think physical therapy can help you and what your treatment program might involve. If you need a physician referral, we can provide you with information to provide to your doctor or, if you are currently between doctors, we can recommend a doctor for you to visit.

Nothing is more rewarding than taking care of yourself, or a friend who will thank you a million times over for helping them increase their quality of life. Simply fill out the form below and return it to the facility closest to you. We will set up the free consultation and get you on your way.
